

PEB Design / Detailing / Construction

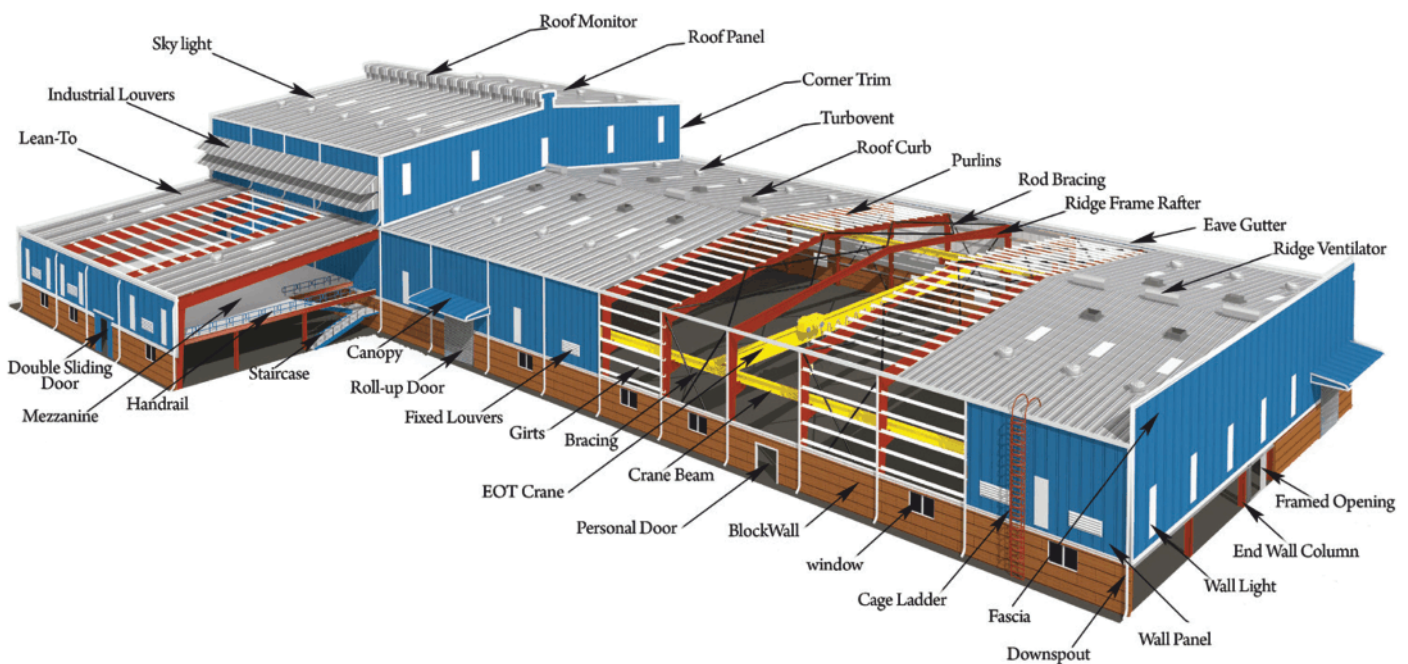

About Us

Gargi Engineering Services is a Structural Consultancy and PEB (Pre-Engineered Building) Turnkey Construction Project firm that specializes in engineering of PEB, Conversional Steel Structures and Light Gauge Structures in the area of Design, Detailing and Estimation and Construction.

We provide complete solutions for pre-engineered buildings right from estimation to analysis, design, detailing and certification.

We believe that our value engineering services will certainly help our customers to have optimized designed structure. The detailing of structure is with the aim of ZERO error and done in way to reduce complexity and time during fabrication and construction.

Pre Engineering Building

Pre-Engineered Steel Buildings (PEB) is a steel structure built over a structural concept of primary members, secondary members and cover sheeting connected to each other.

The structural members are custom designed to be lighter in weight as well as high in strength. Each component of building comes pre-punched, marked and shipped to site. This facilitates minimum onsite work and the components need to simply assemble together at site.

PEB can fitted with different structural member additions like Mezzanine floors, Crane Beam system, fascia, canopies, staircase, cage-ladder, pipe rack system and other user requirements.

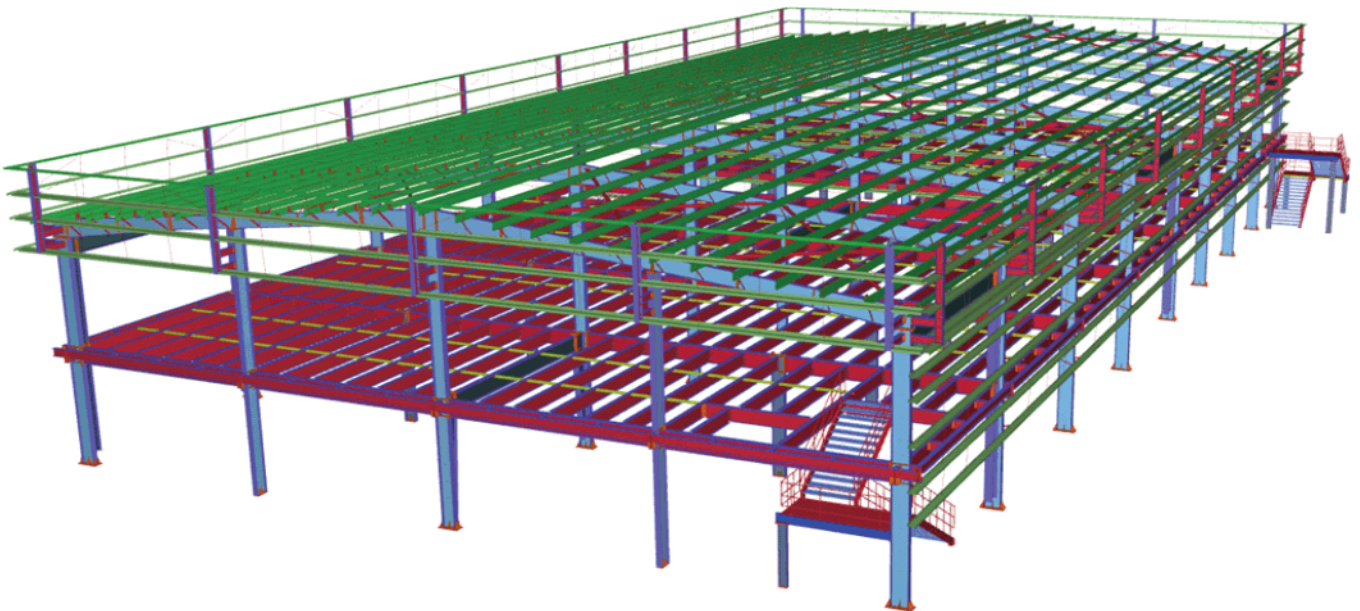

PEB Design and Detailing

Gargi Engineering delivers highly accurate and coordinated PEB structural desing and detailing services using Staad and Tekla Structures, enabling fabricators and contractors to optimize time, minimize rework, and execute projects with confidence.

Our strong knowledge base covers a wide range of indian and international design standards, including AISC and IS codes. Each structure is designed based on project-specific requirements, in close collaboration with clients, consultants, and architects.

With a robust detailing workflow powered by AutoCAD 2D and Tekla 3D, along with advanced software tools, we ensure precise, efficient, and fabrication-ready outputs that meet the highest industry standards.

Our focus is on quality, speed, and coordination to ensure smooth project execution

Our Services

PEB 3D MODELING & DETAILING

High quality 3D models using Tekla Structures with accurate member information.

SHOP DRAWINGS

GA drawings, assembly drawings, part drawings, erection drawings and more.

CONNECTION DETAILING

Detailed connection drawings with bolts, welds, plates and stiffeners.

MATERIAL TAKE-OFF

Accurate BOQ, material list & weight summary.

COORDINATION & CLASH CHECK

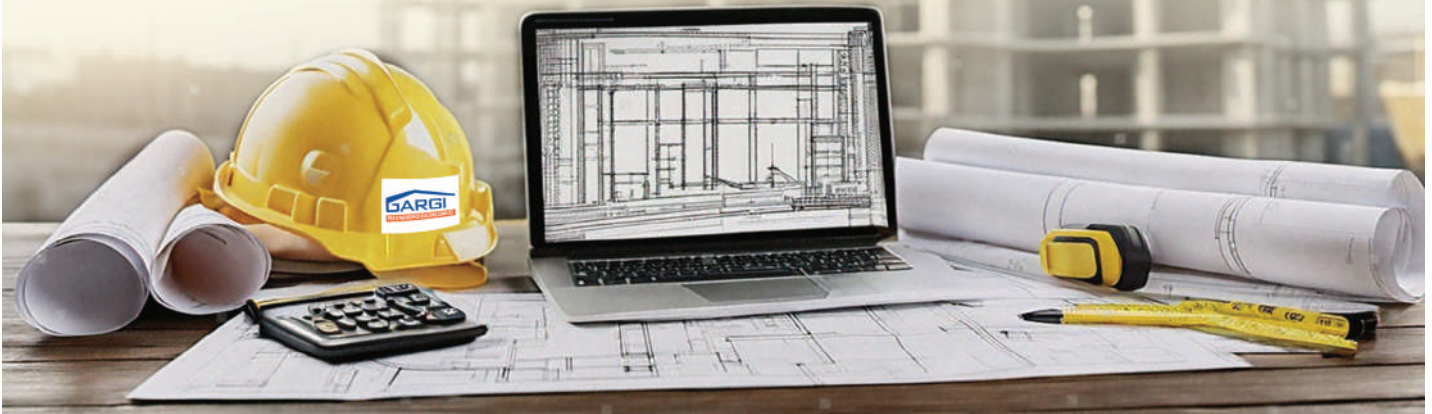

3D coordination and clash checks for smooth project execution.

Our Technical Strength

Our technical Team has vast experience in Designing and Detailing of Pre engineering Buildings, Multi story steel building etc.

With more than 15 years of Pre-engineering and construction experience, we lead a talented team of professionals offering structural engineering and design services to architects and leading PEB companies.

We offer consultancy in wide range of architectural, structural & construction management projects. Our team consists of qualified engineers having vast experience & technical knowhow to provide complete structural designing and execution solutions for any kind of project.

Our Vision and Values

One stop solution for complete PEB Design / Detailing and RCC Design for Pre-engineered buildings construction.

Our emphasis on clear and complete understanding of engineering details in the conceptual phase significantly reduce or eliminate problems in the construction phase.

We are progressive in our knowledge of new and innovative products and ideas and maintain hands on approach to projects.

We undertake full responsibility to provide harmony, function & efficient utilization of spaces with emphasis on aesthetic & environment in our innovative & appealing designs.

Our Completed Projects

MOTHERSON GROUP OF COMPANIES PUNE

Motherson Automotive Technologies Engineering (MATE) Crane Capacity - 50 MT

Marelli Motherson Automotive Lighting (MMLI) Crane Capacity 50MT

Kalyani Technoforge Ltd (Biradwadi) Chakan, Pune / Area - 137000 Sq.ft.

Prarambh Industries Chakan, Pune. G+1 Structure

ZOOMLION INDIA PVT. LTD.

Zoomlion India Pvt. Ltd., Khed City, Chakan

ADVIK Hi-Tech Pvt Ltd., Chakan, Pune.

NIBE INDIA FORGING PLANT

NIBE India, Shirdi / Area - 275000 Sq.ft. / Tonnage - 3400 MT

MOTHERSON GROUP FRITZMEIER

Motherson Fritzmeier, Motherson Cabin Engineering, Chakan, Pune

Group Antolin, Chakan, Pune / Area - 157000 Sq.ft

Blinkit, Chakan, Pune / Area - 217000 Sq.ft

KALYANI FORGE CHAKAN

Kalyani Technoforge Ltd (Ambethan Unit) Chakan, Pune / Area - 90000 Sq.ft.

KSH Industries Chakan, Pune / Area - 95,000 Sq.ft.

Surin Automotive Pvt. Ltd., Chakan, Pune / Area - 85000 Sq.ft.

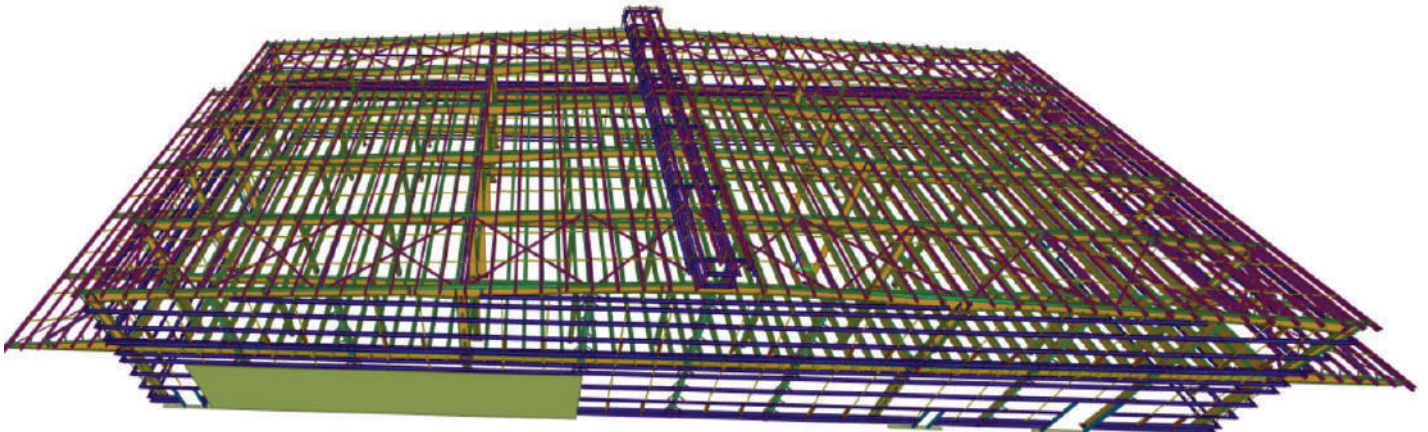

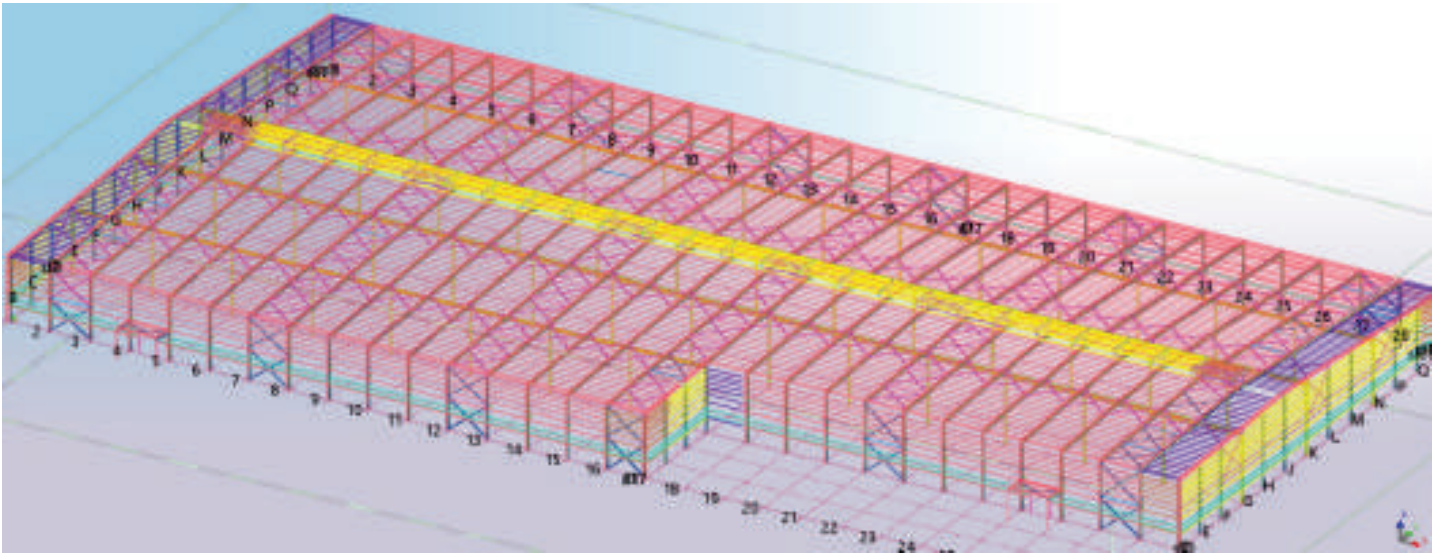

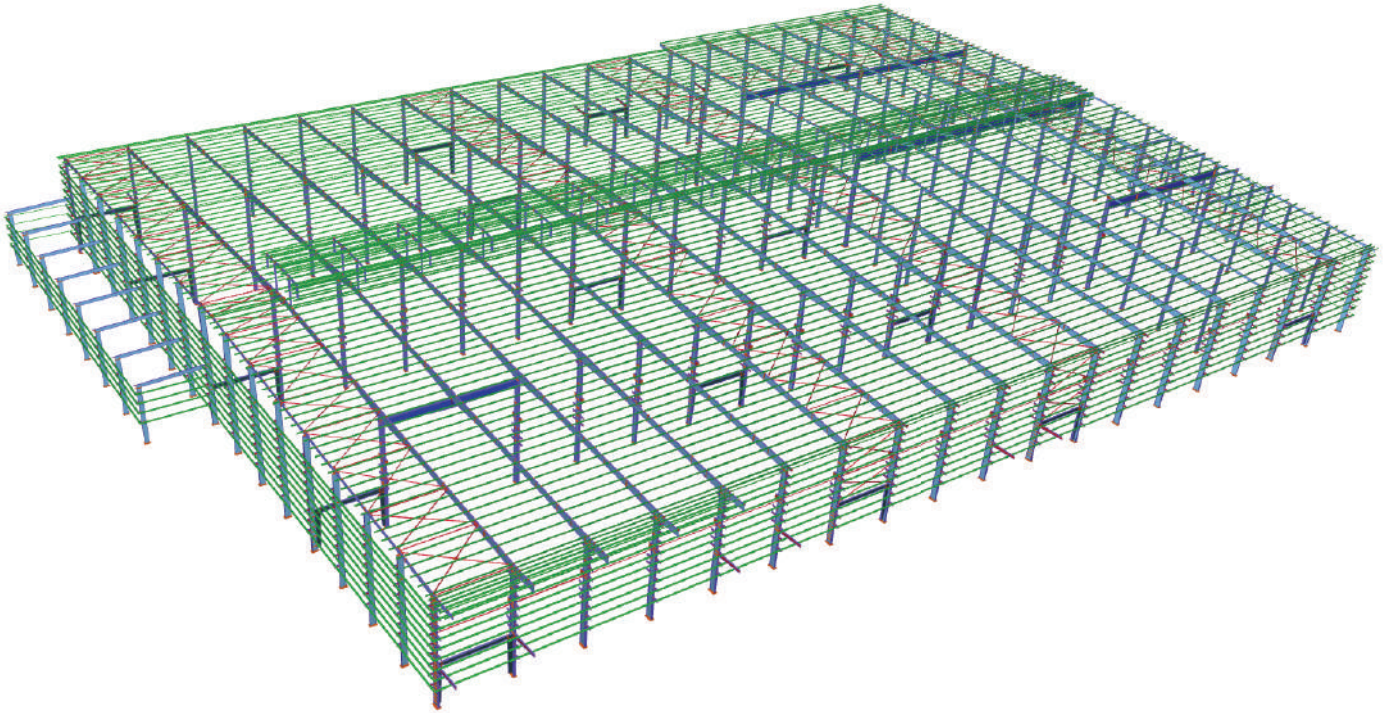

Horizon Industries JHEV Motors, Chakan, Pune. Area - 75,000 Sq.ft

Shlok Enterprises, Chakan, Pune / Area - 245000 Sq.ft

Tekla Detailing Projects

Jadhav Industries Pune. Area 45,000 sq.ft

Ascent Precision India Pvt. Ltd. Chakan Pune. Area 50,000sq.ft

Ultra Industries, Chakan, Pune. Area 1,17,000 sq.ft

Kosh Innovations, Pune. Area 85000 Sq.ft

Sahyadri Industries Chakan Pune. Area 65,000 Sq.ft

Alligator Automations India Pvt. Ltd. Area 1,35000 Sq.ft

Economy Process Solutions Chakan, Pune. Area-105000 Sq.ft

Star Bazar and Zudio Pimpri Chinchwad, Pune. Area-55,000 Sq.ft
